

HMS GROUP

The leading in Russia and CIS manufacturer of pumps, compressors, modular and process equipment as well as the integrated solutions provider for oil & gas, nuclear & thermal energy, water & utilities

Engineering of the oil & gas industry objects, complex supplies of the process equipment and EPC projects are the strategic directions of HMS Group

KEY FACTS AND FIGURES

- HMS Group foundation – 1993
- one of the leading manufacturers of pumps, compressors and oil & gas equipment in Russia and CIS
- extensive experience of the integrated projects for oil & gas and water & utilities
- manufacturing facilities in Russia, Ukraine, Belarus and Germany
- over 15 600 employees
- widespread dealer network

MAIN BUSINESS ACTIVITIES

Pump engineering, manufacturing and service

- pumps (including API 610 compliant) and pumping stations for oil & gas industry
- pumps for thermal&nuclear energy
- pumps for water supply, sewage disposal
- pumps for steel, mining and other industries

Compressor engineering, manufacturing and service

- compressors
- gas compression systems
- complete compressor stations
- refrigerating machines and systems

Oil & gas equipment engineering, manufacturing and service

- skid-mounted and modular equipment for oil & gas fields integrated development
- special oilfield equipment for production stimulation; recovery increase; well works; repair, insulation and hydraulic fracturing of oil well formation
- flow meters and systems for oil, gas and water
- oil & gas equipment repair and maintenance

Facilities engineering for oil&gas and water & utilities

- oil & gas field facilities engineering and construction
- water supply and sewage disposal facilities engineering and construction
- complex supplies of integrated systems and units

CUSTOMERS OF THE HMS GROUP – LEADING COMPANIES IN VARIOUS INDUSTRIES

Gazprom, Gazprom Neft, Transneft, Novatek, Rosneft, LUKOIL, Surgutneftegas, SIBUR Holding, BP, Conoco Phillips, Lundin Petroleum, Daewoo Engineering, Petrofac, AIBEL / Statoil, Alstom, GE Engineering & Construction, E4 Group, Globalstroy Engineering, Stroytransgaz, Monnet Steel, NAMCO, Jindal Steel, Severstal, Mechel, Norilsk Nickel, INTER RAO UES, Power Machines, Fortum, Atomstroyexport, Rosvodokanal, Mosvodokanal, Vodokanal of St. Petersburg, Ministry of Water Resources of Turkmenistan

The integrated commercial and engineering company of HMS Group

The company supplies the equipment manufactured by the Group's divisions and implements the complex projects in Russia and abroad

HMS GROUP AFFILIATE COMPANIES

PUMPS & SYSTEMS

HMS Livgidromash, Livny, Russia

Manufacturing of a wide range of pumps for various industries

Livnynasos, Livny, Russia

Manufacturing of borehole submersible centrifugal pumps for water & utilities

Nasosenergomash, Sumy, Ukraine

Manufacturing of pumps for oil & gas, thermal and nuclear energy, water & utilities

Promburvod, Minsk, Republic of Belarus

Manufacturing of borehole submersible centrifugal pumps for water & utilities and agriculture equipment

Bobruisk Machine Building Plant, Bobruisk, Republic of Belarus

Manufacturing of pumps for oil & gas, chemical processing, mining, metallurgy, thermal and nuclear energy, pulp & paper, water & utilities

Apollo Goessnitz GmbH, Goessnitz, Germany

Manufacturing of upstream (including offshore), midstream, and downstream pumps compliant with ISO, API, DIN, NORSOK, ANSI, ASME standards for oil and petroleum products, liquefied gas, gas condensate as well as pumps for thermal power, petrochemical and chemical industry

Dimitrovgradkhimmash, Dimitrovgrad, Russia

Manufacturing of tanks & vessels, pumps and chemical equipment

Nizhnevartovskremervice, Nizhnevartovsk, Russia

Centrifugal pumps manufacturing as well as repair, retrofit, and service of the pumping and oilfield equipment

Institute Rostovsky Vodokanalproekt, Rostov-on-Don, Russia

Design engineering of water supply, waste water systems and hydraulic facilities

VNIIAEN, Sumy, Ukraine

R&D institute specializing in pump engineering for nuclear and thermal power plants

COMPRESSORS & SYSTEMS

Kazancompressormash, Kazan, Russia

Manufacturing of compressors for various industrial applications including gas compression systems, and complete compressor stations

NIIturbokompressor, Kazan, Russia

R&D of compressor equipment, systems and stations

OIL & GAS EQUIPMENT

HMS Neftemash, Tyumen, Russia

Manufacturing of modular oilfield equipment

Sibneftemash, Tyumen, Russia

Manufacturing of stationary and mobile cement storages; well workover equipment, hydraulic fracturing equipment; packers and anchors; tanks and vessels

Sibnefteavtomatika, Tyumen, Russia

Flow rate meters engineering and manufacturing

ENGINEERING AND CONSTRUCTION

Giprotyumenneftegaz, Tyumen, Russia

Design engineering of oil & gas field facilities

Tomskgazstroy, Tomsk, Russia

Construction of pipelines, process and infrastructure facilities for oil & gas field development
